JLAN SOLUTIONS COMPLETES THE INNER CITY CAPITAL CONNECTIONS PROGRAM

JLAN Solutions a Washington, DC-based government consulting firm completed the prestigious Inner City Capital Connections (ICCC) program, a high-impact urban business program presented by the Initiative for a Competitive Inner City (ICIC). During the program, JLAN Solutions' leadership participated in a comprehensive executive education curriculum led by top-tier professors from leading entrepreneurship institutions and intensive coaching sessions. JLAN was also matched with prospective capital resources and investors for company growth.

JLAN Solutions was nominated to participate in ICCC by the DC Chamber of Commerce. Still, the competition for the acceptance into the program is highly selective. For each seat in the program, companies must submit a compelling application, demonstrating their determination as a small businesses to increase their growth. *"We were delighted to be nominated by the DC Chamber and now honored to be an ICCC alum,"* said JLAN Solutions President and CEO Ronnette Meyers. *"Professional development programs like ICCC equip the District's entrepreneurs and growing businesses with the skills needed to continue to grow the local economy."*

ICCC launched for the first time in the nation's capital in 2017 through a unique, multi-year partnership with the Catholic University's Tim and Steph Busch School of Business and Economics. ICCC is a multi-city effort that helps small businesses build capacity for sustainable growth in revenue, profitability and employment.

About ICIC

The Initiative for a Competitive Inner City (ICIC) is a nonprofit research and strategy organization and the leading authority on U.S. inner city economies and the businesses that thrive there. Founded in 1994 by Harvard Business School Professor Michael Porter, ICIC expands inner city economies by providing businesses, governments and investors with the most comprehensive and actionable information in the field about urban market opportunities. ICIC's unique knowledge and expertise about inner city success factors and thriving companies is developed from specialized urban networks and path-breaking research. www.icic.org
